

CS595 Assignment 4

Jon Robison

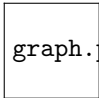

October 6, 2013

Q1. From your list of 1000 links, choose 100 and extract all of the links from those 100 pages to other pages...Upload these 100 files to github.
Large collection of files included in results directory
See Appendix A for download program

Q2. Using these 100 files, create a single GraphViz "dot" file of the resulting graph
See Appendix B for script to produce plot
See Appendix C for dot file

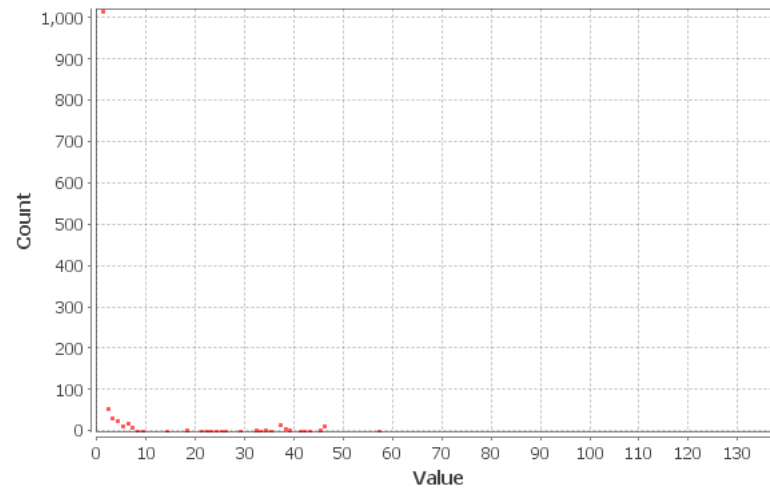

Q3. Download and install Gephi...Load the dot file created in #2 and use Gephi to:

- visualize the graph (you'll have to turn on labels)
- calculate HITS and PageRank
- avg degree
- network diameter
- connected components

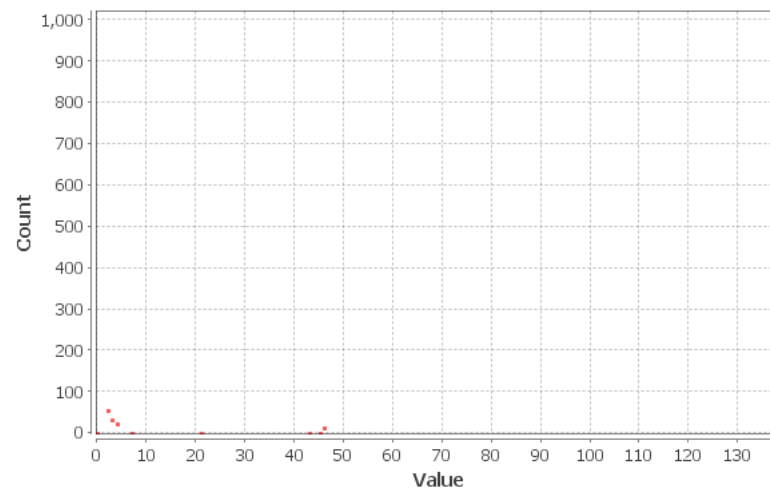

graph.png

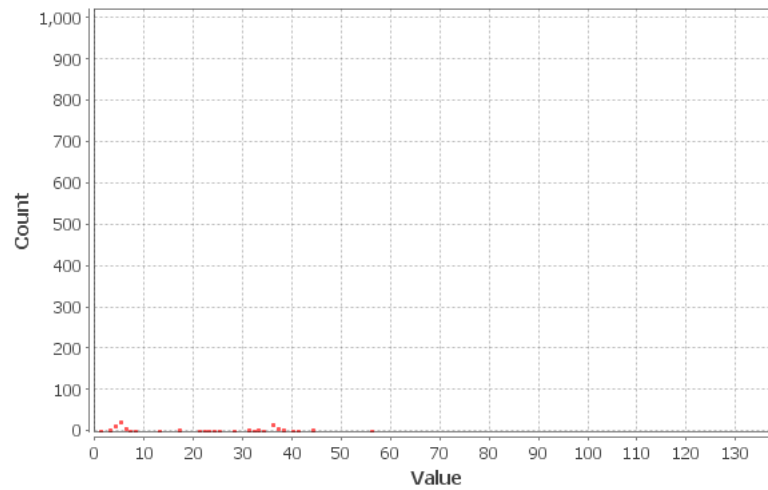

Degree Distribution

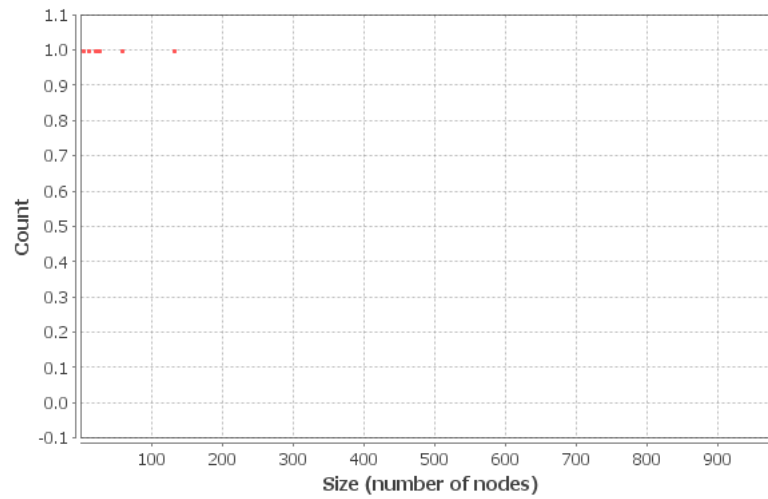

In-Degree Distribution

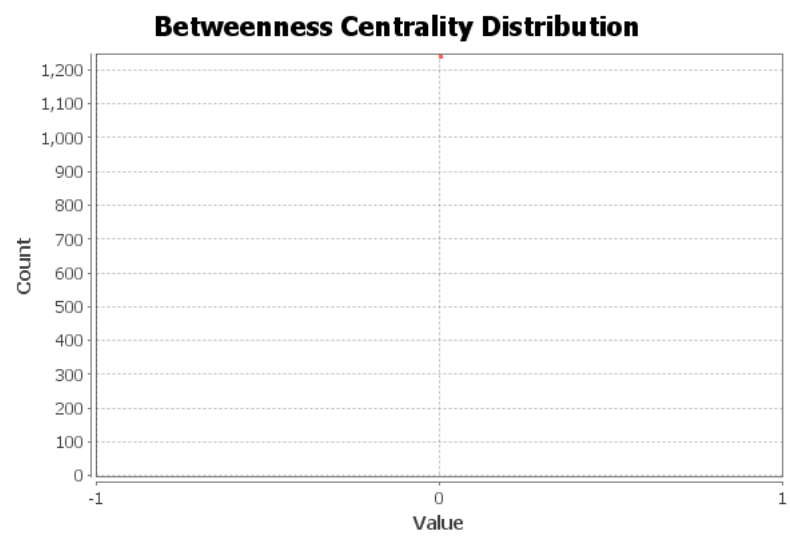

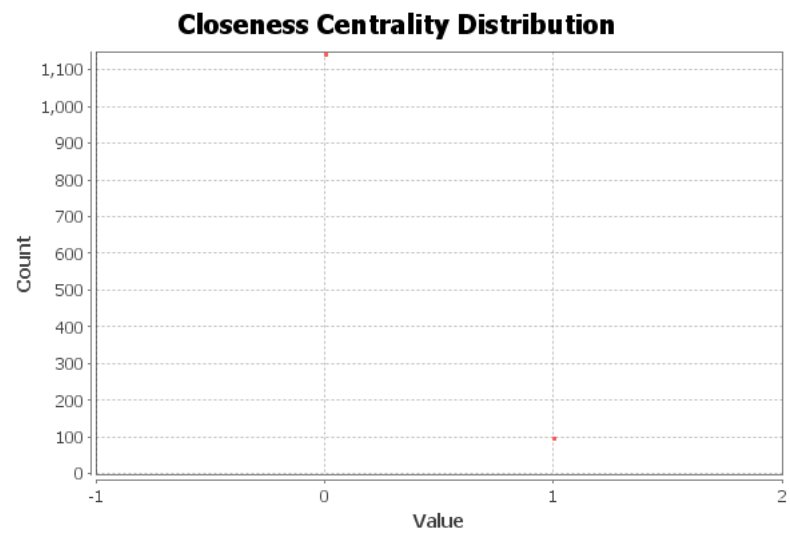

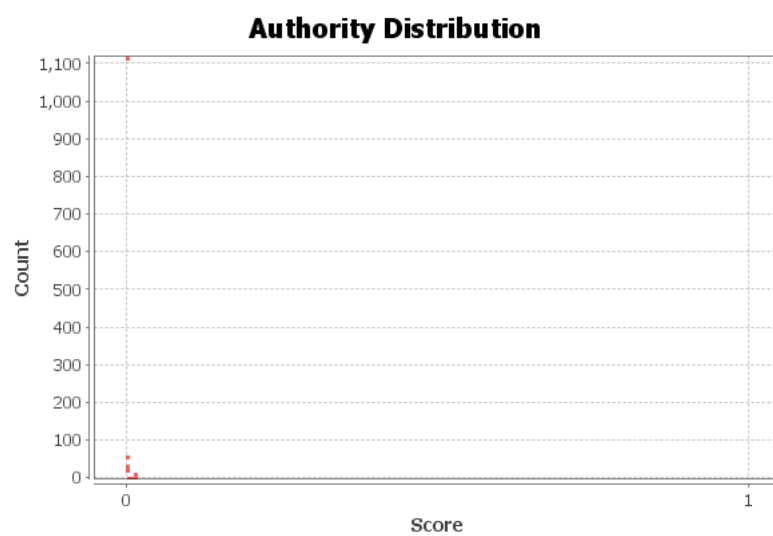

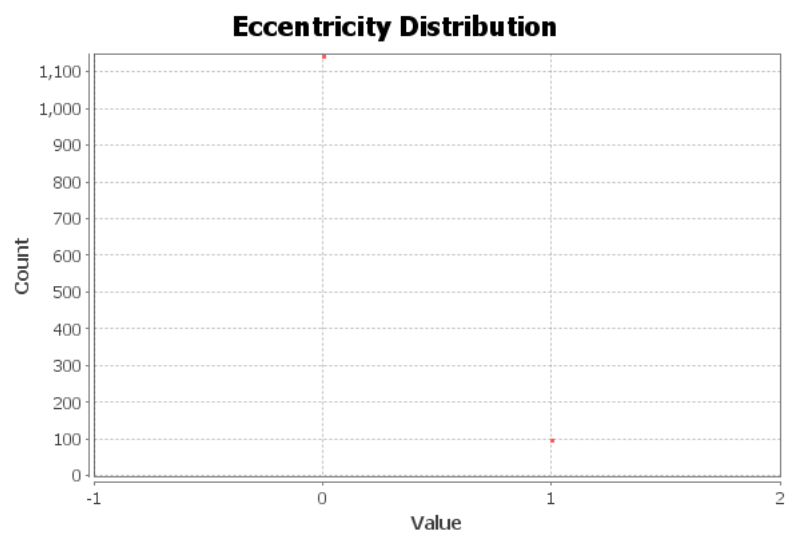

Out-Degree Distribution

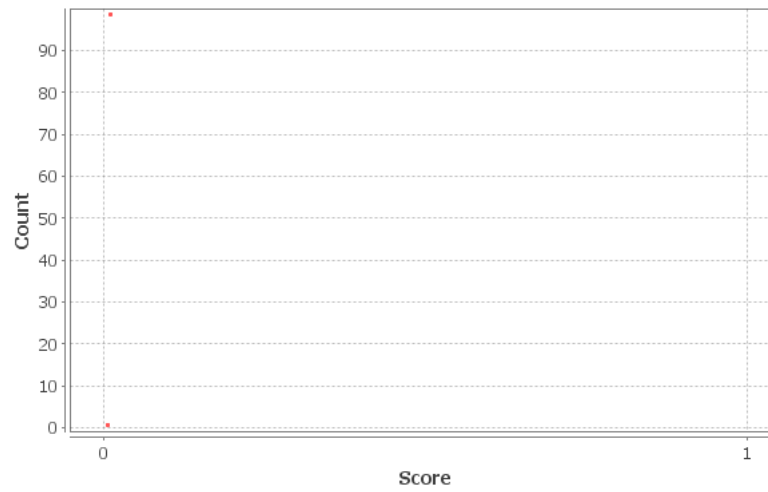

Size Distribution

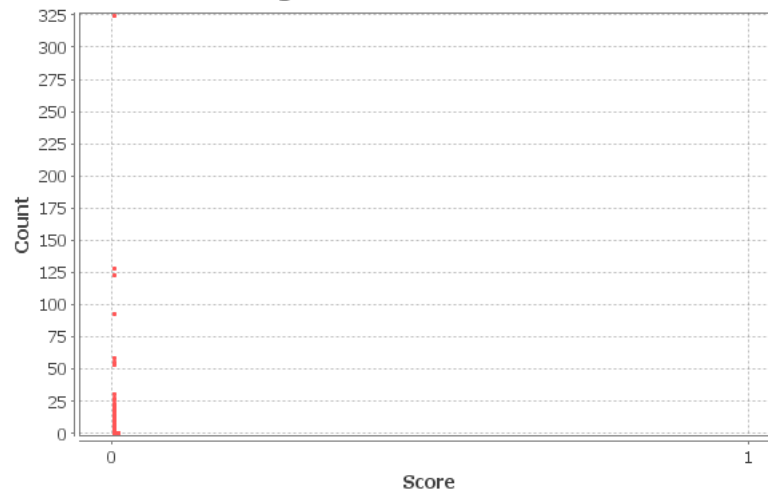

Hubs Distribution

PageRank Distribution

Appendix A

```
